

Unionville Equine Associates Fecal Parasite Test Form

To Determine Efficacy of a Dewormer

- Fecal tests should be performed 10 to 14 days post de-worming

To Determine Egg Shedding Status

Test All Horses based on this protocol

- 8 weeks after Anthelcide, Panacur or Strongid
- 12 weeks after Ivermectin
- 16 weeks after Quest

Follow the steps below to submit a fecal sample:

1. Print out form
2. Complete all required information
3. Bring completed form along with one fecal ball (less than 12 hours old) to our clinic or obtain a fecal sample jar in advance. Fecals must be dropped off during business hours
4. Fecal Tests are \$18.00 per horse
5. The results will be delivered directly to your veterinarian who will contact you to discuss a program to follow for each horse a fecal is submitted for
